

FilmCylinderCleaning consumables

FilmPac cloth and Film Remover solvent

Unique microfilament cloth and application-optimized solvent for the Baldwin FilmCylinderCleaning system, delivering maximum cleaning performance in plastic film production and sheet extrusion.

Outstanding cleaning capabilities

Baldwin FilmPac cloth and Film Remover solvent are especially developed for optimal chill cylinder cleaning performance in plastic film extrusion and sheet production lines. The consumables are optimized for the Baldwin FilmCylinderCleaning system to keep the sensitive cylinders perfectly cleaned.

Advanced clening cloth

Avoiding scratches on chill cylinders can save loads of production costs in forms of waste or investment in new equipment. The Baldwin FilmPac is a unique lint-free microfilament cloth that is advancely manufactured to avoid scratches on the cylinders.

Optimal cleaning efficiency and absorbtion abilities make the cloth roll last longer than any conventional type of cleaning cloth.

Easy handling

The FilmPac rolls are featured with a slide-on core for quick and easy installation in the FilmCylinderCleaner. In addition, the axial movement of the FilmCylinderCleaner itself, enables easy access for service and maintenance when needed.

NSFcertified cleaning solvent

The Baldwin Film Remover solvent is NSF approved (National Sanitation Foundation), which means that it is fully secured to meet strict standards for public health protection.

Cleaning excellency in every application

The Baldwin Film Remover solvent is adapted for optimal cylinder cleaning whether it is a Polyethylene (PE) or Polypropylene (PP) production line. You can rely on the excellent cleaning efficiency of the Baldwin Film Remover solvent.

FilmCylinderCleaner consumables

Outstanding cleaning capabilities

FilmPac cloth

FilmPac is delivered in a seven or thirteen meter long roll, cut in the precise width to fit the FilmCylinderCleaner equipment in your application. The rolls are individually packaged in plastic to prevent contamination.

Benefits FilmPac

- Outstanding absorption capabilities
- Excellent cleaning efficiency – Long lasting cloth
- Easy handling – quickly installed by slide-on core
- Scratch-free
- Lint-free

PE cleaning solvent, PP Cleaning solvent

Available as PE and PP optimized cleaning solvent, for most efficient cylinder cleaning – no matter the application.

Benefits Cleaning solvent

- NSF-approved
- Excellent cleaning efficiency
- PE solvent, optimized for Polyethylene film
- PP solvent, optimized for Polypropylene film

Baldwin at your service

Baldwin has a large number of highly skilled Service engineers ready to support your installation for years to come, and always close at hand. With vast production expertise of over 40 years, Baldwin offers planning, 3D design and equipment installation at your production site. You can rely on Baldwin service expertise to maximize the lifetime of your equipment with outstanding results.
