JumboDry

Unrivalled durability and abrasion resistance
in customized cloth consumables

Designed to meet the demands of Newspaper, Commercial Web, and Sheet-fed applications, JumboDry cloths are available in several strengths and resistances. The cloth is specially manufactured to ensure the best-quality and cleaning results especially for your press requirements and budget.

The extra absorbency of the Baldwin JumboDry allows for improved cleaning results, shorter wash times and lower cloth consumption. All cloth types are exclusively made for Baldwin and are OEM approved for universal compatibility.

Worldwide service ensures that supply and expert support are always within close reach.

Special versions of the Baldwin JumboDry cloth is specifically designed for structured impression cylinders and ceramic jackets. Non-woven fabric with specially selected fibers ensures that the cloth withstands the wear caused by high abrasion applications while preventing linting and de-lamination that result in printing waste.
