

PREPAC®: One-Day Conversion, Long-Term Results

Boost Productivity & Cut Costs with PREPAC®. Unlock Up to 100 Additional Production Hours Annually while Reducing Maintenance Challenges—In Just One Day!

- 300+ presses converted from dry cloth to PREPAC®
- KBA, Heidelberg, Komori, Timson, Manroland Goss, Wifag
- No need to stop production—full conversion made in 1 day

Benefits with PREPAC® vs Dry Cloth

Save up to
\$100k per press

Up to 35%
increase in
productivity

Up to 50%
waste reduction

Eco-friendly up to
65% less solvent & 35%
less cloth consumption

Reduced
maintenance
& service

PREPAC®—The Original All-in-One Cleaning Solution

Baldwin is a pioneer and market leader in PREPAC® technology, with over 30 years of continuous innovation to enhance customer profitability, quality, and efficiency. Designed with an optimized formula and tailored solutions, PREPAC® delivers top-tier cleaning performance, faster make-readies, and maximum production uptime.

PREPAC® customers receive more than just the market's best cleaning cloth—they benefit from Baldwin's industry-leading expertise in cleaning processes, non-wovens, chemicals, and wash bar technology. With full support and proven performance, PREPAC® delivers consistently exceptional cleaning results, every single day.

BALDWIN®

WestRock Plant Saves \$100,000+ in First Year by Going Green

"With the original dry cleaning cloth, we were having constant problems with maintenance issues, keeping spray bars clean. PREPAC® eliminates these common issues experienced by press operators running with dry cloth and solvent-dispensing systems"

Richard Tucker, Press Supervisor at WestRock

Allied Printing Boosts Efficiency and Eliminates Solvent Issues with PREPAC®

"We run PREPAC®s on all of our other machines, including our K&Bs and Komori web presses, and we demanded that PREPAC® be used on the new K&B."

Kevin Howard, VP Sheetfed, Web, & Postpress at Allied Printing Services

Baldwin PREPAC® is the only cloth we wanted on that machine. We tested other options and there's just no comparison—PREPAC® is more efficient and requires no clean-up and no need for multiple solvents."

Gerry Dugan, Sheetfed Manager at Allied Printing Services

Grammlich slashes startup waste, maximizes efficiency with savings of \$25,000 per Year going from Dry Cloth to PREPAC®

"Thanks to the increased cleaning efficiency of PREPAC®, we reduce the number of hours required each year for wash time, maintenance of the wash bar, which raises overall productivity of our presses."

Jörg Flad, Grammlich Printing Department Manager
